

Environmental Policy

Eagle Helicopters Pty Ltd

Eagle Helicopters Pty Ltd is an aerial agricultural company, specialising in aerial agriculture operations, aerial surveying, aerial spotting, dropping water and fire retardant for bushfire control and power line operations

Due to the nature of the company's operations, there are many Acts, Regulations and Codes of Practice that apply to it. These originate from civil aviation, occupational health and safety and environmental sources. Eagle Helicopters Pty Ltd is committed to adhering to any legislative or regulatory directive relevant to its business.

The company has taken extensive steps to ensure that it uses all chemicals carefully and is determined that no pollution will occur as a result of its activities.

The company has developed an Action Plan and a series of Environmental Work Instructions to assist it to set and meet the environmental objectives and targets it has set for itself.

Eagle Helicopters Pty Ltd has also put in place emergency preparedness and response plans to reduce adverse environmental effects due to unforeseen events.

This policy statement is on public display in the company's office and has been distributed to all employees

*Eagle Helicopters strives to be
an environmentally friendly company*
